

GET INVOLVED in Sharing the Message

Our most popular course, [How to Hear God's Voice](#) trains in hearing God's voice through two-way journaling. Many have begun [doing two-way journaling, including my grandchildren!](#) ***God's favor IS upon this message!*** Most who have received the teaching, turn around and teach the four keys to hearing God's voice to their friends, children and small groups. We have [100 testimonies of two-way journaling posted here](#). People's lives are transformed, even as mine was when I learned how to hear God's voice.

Revival is well underway – together we are saturating the world with communion with God

Strategies

Participants repeat each course a 2nd time – There are two purposes to repeating a course: 1) You bring along a friend which is your way of introducing others to Kingdom living, while 2) deepening the principles within yourself through the process of repetition. Depending on how much time you have available, you may go on to the next course 1) while repeating the first course, or 2) after having repeated the first course.

Regional Representatives – These people will support, coordinate, and motivate those in their region to participate in all the above opportunities for sharing these life-giving truths. These upcoming regional reps will be listed on the CWG website.
